OVERVIEW

Your whole operation, in one place

KogniCargo replaces the spreadsheets, WhatsApp updates and separate accounting software that most forwarders juggle. Every job — air or sea, import or export — is one file that carries the shipment, its documents, its tracking history and its invoice. Your team, your customers and your accountant all work from the same truth.

VAT / e-invoice ready

Who it is for

Freight forwarders & NVOCCs

Air & sea, FCL & LCL, consolidation, house & master documents.

Customs brokers & clearing agents

Declarations, duty, delivery orders and clearance tracking.

Container & transport operators

Loading / unloading, container movements, trucking & delivery.

Logistics SMEs going digital

One affordable system instead of paper files and Excel.

Why KogniCargo

- ✓ **End-to-end** — booking → tracking → documents → invoice → collection, without leaving the system.
- ✓ **Accounting built in** — freight invoices, VAT and receivables are native, not a bolt-on.
- ✓ **Compliance ready** — bilingual TAX invoices, TRN, and structured e-invoicing with QR for the UAE 2026 mandate & India IRN.
- ✓ **Your data, your choice** — run it in the cloud or on your own server, fully offline-capable.
- ✓ **Fast to adopt** — clean, modern screens your operations team learns in a day.

Shipment / job file

- Air & Sea**, Import & Export in one screen
- Parties** — shipper, consignee, notify, agent, carrier
- Route** — origin/destination ports, ETD / ETA, incoterm
- Cargo** — pieces, gross weight, volume (CBM), chargeable weight
- Sea** — FCL/LCL, container no, type, seal, MBL & HBL
- Air** — MAWB & HAWB, commodity, dimensions

Live tracking & dispatch

- Status pipeline** — Booked → In Transit → Arrived → Cleared → Delivered
- Event timeline** — every milestone with place, note & time
- Visual progress bar** on each job
- Dispatch & POD** — hand-over and proof of delivery
- Search** by job, B/L, AWB, container or customer
- Filters** by mode & status for the operations board

CONTAINERS · CUSTOMS · WAREHOUSE — LOADING, UNLOADING, DEPOT MOVEMENTS & CLEARANCE ALL FLOW FROM THE JOB FILE

Customs clearance

Declarations (Bayan), duty capture, clearance status and broker workflow per job.

Container handling

Container tracking, loading / unloading (stuffing / destuffing) and depot movements.

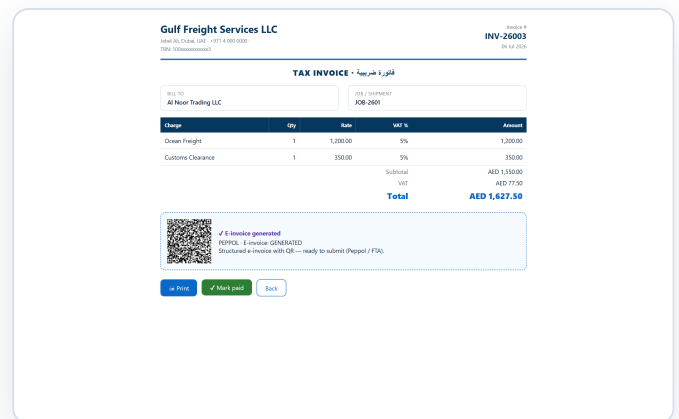

Print the papers. Bill the customer.

Documentation

- **Air Waybill (AWB)** — House & Master
- **Bill of Lading (B/L)** — House & Master
- **Delivery Order** & cargo manifest
- **One-click print** straight from the job file
- **Bilingual** English / Arabic documents

Freight invoicing

- **Invoice from a shipment** — customer & job auto-filled
- **Charge catalog** — freight, THC, customs, handling, docs, trucking...
- **Automatic VAT** per line & totals
- **Receivables & payments** — paid / unpaid, ageing
- **Per-job profitability** — revenue vs cost

Bilingual TAX INVOICE with e-invoice QR

E-Invoicing — ready for what's coming

Every invoice generates a **structured e-invoice with a scannable QR code** (seller, TRN, invoice no, date, total, VAT). Configurable for **Peppol / UAE FTA (2026 mandate)** and **India IRN** — turn it on in Settings when you need it.

Flexible, bilingual, yours

Cloud or On-Premise

Host it on your own server — works fully offline — or in the cloud for anywhere access. Start on-premise, move to cloud when ready. Same system.

Bilingual EN / العربية

Full Arabic interface with right-to-left layout and bilingual tax invoices your customers expect.

Secure & role-based

Every user has a role and permissions — Operations, Accounts, Customs. Full audit log.

Configurable

Your company profile, tax system (VAT / GST / none), charge catalog, ports and e-invoice standard.
